F I G. 5
Prior Art

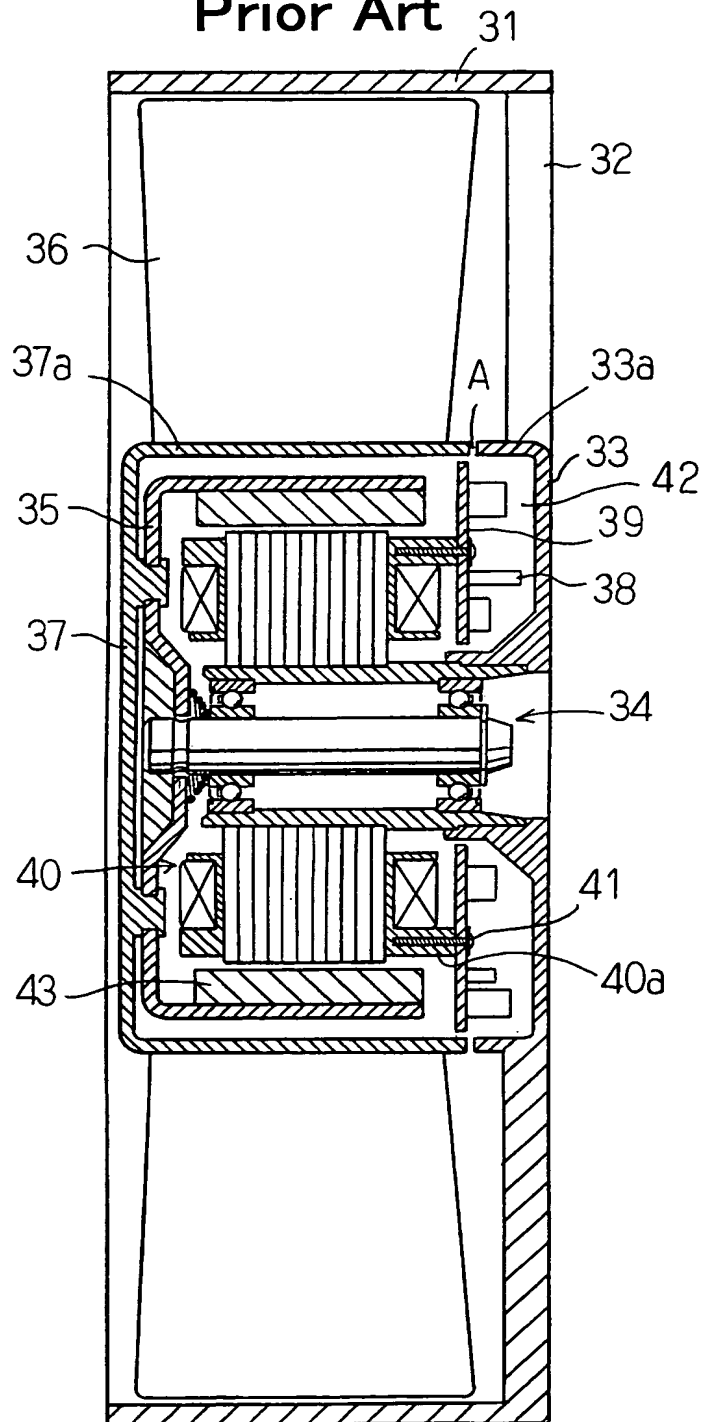

FIG. 5 is a cross-sectional view of a prior art device, showing a central component (36) and a vertical rod (37a) passing through it. The device is housed within a rectangular frame (31) with a top flange (32). The central component (36) is shown in a retracted position. A vertical rod (37a) passes through the center, with a stop (37) at its lower end. A horizontal rod (34) is positioned below the central component. The assembly includes two sets of vertical fins (35 and 40) and two sets of horizontal fins (38 and 40a). A central vertical rod (39) is also present. The entire assembly is supported by a base (43). A label 'A' is placed near the top of the central component. The diagram uses hatching to indicate different materials or cross-sections.
